HCA Hospice (HCA) is Singapore's largest home hospice care provider and a registered charity since 1989. Each year, HCA makes over 43,000 home visits, serving more than half of the home hospice patients in Singapore. We provide comfort and support to individuals with life-limiting illnesses regardless of age, religion, ethnicity, nationality and financial status.

Our care extends beyond the medical and psychosocial support we provide, as we journey alongside them throughout this end-of-life chapter, providing bereavement support even after the patient has passed.
